

LOUIE ALDRIN JAYME CABRAL

FRONT END ENGINEER

Blk6, Lot7, Phase 3 Zaragoza St, | louiealdrin25@gmail.com | louie-aldrin-portfolio.netlify.app/
Salinas 2, Bacoor Cavite

SUMMARY

Adept Front End Engineer with a proven track record at Upward Next Inc, where I transformed complex designs into responsive websites, significantly enhancing user experience. Using HTML, CSS, and employing the BEM methodology for streamlined development. Demonstrated ability to improve efficiency through meticulous code management and optimization, showcasing both technical prowess and strategic thinking.

TECHNICAL SKILLS

HTML5	ReactJS	Tailwind CSS
CSS3	PugJS	Wordpress
JavaScript	SCSS	Responsive Web Design

PROFESSIONAL EXPERIENCE

Upward Next Inc

August 2022 - Present

- Translate Adobe XD, Illustrator, and Figma designs into responsive static websites. Using PugJS, Sass, and TypeScript.
- Add functionality to static websites using WordPress plugins ACF and MWWP Form.
- Optimized website load times by using Lazy Loading.
- Working with version control systems and source code management tools (e.g., Use Git, GitLab) to keep track of code.
- Conducted code reviews with other developers to ensure adherence to coding standards and improve maintainability.

EDUCATION

Bachelor of Science in Information Technology

June 2018 - June 2022

Centro Escolar University - Makati

- This is a four-year program that focuses on the utilization of computers and computer software to plan, operate, and administer information technology infrastructures. The curriculum provides for the needed skills in Animation, Robotics, and Game Development
